FRIDAY AFTERNOON, NOV. 1, 1867.

NATIONAL THANKSGIVING.

President Johnson has issued a proclamation recommending Thursday, the 28th day of November last, as a day of "national thanksgiving and praise to the Almighty Ruler of Nations." The people of the United States have abundant reasons for thankfulness to the "giver of every good and perfect gift" for the numerous blessings showered down upon them. Let all join in praise and thanksgiving.

The following is the President's proclamation:

PROCLAMATION OF THE PRESIDENT OF THE UNITED STATES OF AMERICA.

In conformity with a recent custom, that may now be regarded as established, on national consent and approval, I, Andrew Johnson, President of the United States, hereby recommend to my fellow-citizens, on the twenty-eighth day of November next, to abstain and observe throughout the republic as a day of national thanksgiving and praise to the Almighty Ruler of Nations.

Resting and refining from their labors on that day, let us return to and devote ourselves to our Heavenly Father for the mercies and blessings with which he has crowned the new closing year. Especially let us remember that He has covered over us, and caused us to stand apart and observed throughout the republic as a day of national thanksgiving and praise to the Almighty Ruler of Nations.

With whom are dominion and power; and yet he was only allowed to occupy his seat for a week or ten days. Republicans here positively blushed with shame at this outrage upon Mr. Duncan's individual rights, and at such a wanton, deliberate disregard of the clear and unmistakable choice of the people. It was conceded all round that the investigation by the Senatorial committee was a mere sham, there being a fixed determination to give the seat to McConaughay, regardless of law, justice, equity and the particular merits of the case. Last year this Senatorial District condemned McConaughay by a majority of 23. This year, it speaks trumpet-tongued against the party to which he belongs, by a majority of 81.

We might cite other instances, both in the State and National Legislatures, whose injustice is equally glaring and notorious, but this will suffice. What we have to say now is, that it is time for the Conservative press to speak out against this system of gross wrong and stupendous fraud. It is time for the people to say that they will not tolerate any longer this carrying out of pre-meditated and pre-arranged plan to defeat the popular will. If constitutional forms are to be set at naught, or if followed, only for the accomplishment of such nefarious purposes, the sooner the people take the remedy into their own hands, the better.

When we elect men to offices of all sorts, and elsewhere to see that their liberties, their material interests—all the things they hold dear and sacred in life, are directly imperiled by the infamous course of the Radicals in Congress? A triumphal election would be the greatest possible disaster which could befall this nation. We believe the honest men of all parties begin to see that very clearly.

RICHMOND.—The negroes of Richmond, having formed a vigilance committee, warn you to leave the city in forty-eight hours after receiving this notice. We are aware of your hostile feelings towards the Negroes, and are ordering white men to leave the city. On Saturday morning Mr. W. A. Monroe received the following threatening letter:

Richmond, Va., Oct. 25, 1867.

We, the colored people of the city of Richmond, having formed a vigilance committee, warn you to leave the city in forty-eight hours after receiving this notice. We are aware of your hostile feelings towards the Negroes, and are ordering white men to leave the city. When we elect men to offices of all sorts, and elsewhere to see that their liberties, their material interests—all the things they hold dear and sacred in life, are directly imperiled by the infamous course of the Radicals in Congress? A triumphal election would be the greatest possible disaster which could befall this nation. We believe the honest men of all parties begin to see that very clearly.

THE BURDEN OF TAXATION.

That the enormous taxation under which the people groan had much to do with the results of the recent elections, is not doubted by reflecting men. Even fair-minded Republicans admit it.

In a recent number of the New York Times, Republican, appeared an able article, reviewing the political situation, and pointing out some of the causes which press heavily upon business at the present time, and will continue to do so until removed by wise and prudent legislation. The Times says:

"The taxation of the country is beginning to be the object of the gravest importance, and of the deepest alarm to all classes of the people. It comes home to everybody's heart-throb. It affects more directly and more seriously the daily comfort of every man, woman and child than all other political questions, and may, be continued to our country and our people throughout all their generations forever."

In witness whereof, I have hereunto set my hand, and caused the seal of the United States to be affixed.

Done at the city of Washington this twenty-sixth day of October, in the year of our Lord one thousand eight hundred and sixty-seven, and of the Independence of the United States the ninety-second.

BY THE PRESIDENT:

WILLIAM H. STEWARD, Secy. of State.

A NEGRA VIGILANCE COMMITTEE IN RICHMOND.—The negroes of Richmond, having formed a vigilance committee, warn you to leave the city in forty-eight hours after receiving this notice. We are aware of your hostile feelings towards the Negroes, and are ordering white men to leave the city. On Saturday morning Mr. W. A. Monroe received the following threatening letter:

Richmond, Va., Oct. 25, 1867.

We, the colored people of the city of Richmond, having formed a vigilance committee, warn you to leave the city in forty-eight hours after receiving this notice. We are aware of your hostile feelings towards the Negroes, and are ordering white men to leave the city.

When we elect men to offices of all sorts, and elsewhere to see that their liberties, their material interests—all the things they hold dear and sacred in life, are directly imperiled by the infamous course of the Radicals in Congress? A triumphal election would be the greatest possible disaster which could befall this nation. We believe the honest men of all parties begin to see that very clearly.

SAMPLE SPECIMENS.—In Mecklenburg county, Virginia, the Radicals succeeded in electing two suitable candidates. A correspondent of the Richmond Enquirer says:

Their nominees were John Watson (negro) and Sanford Dodge, a man (!) with a white skin. The former, I am informed, on the best authority, was a notorious thief in time of slavery, and was sold no less than five times. He can be readily read at large. The latter is one (I believe) who has been chosen. Let him be a true man, and he will have to abide by the consequences. After you have spoken of Mr. Hunnicut's name, it will be easily determined that you shall leave the city at the expiration of the time given you.

By order of the committee.

T. B. G., Secretary.

Similar letters were received by other persons. What security for life or property can there be in a community in which negroes thus take the laws into their own hands?

THE NEW YORK WORLD.—The Radical Committee of that State are making a most desperate effort to raise money to corrupt voters. They have demanded money from all the notaries public, assessors of the city firemen and the employees of the Health Board; they have sent denunciatory letters to merchants and business men, and are now levying a tax on postmasters, and demanding two per cent from all clerks under them. These demands are made in the most peremptory manner, as though they had a right to command the purse of every man who has money. The World states, however, that even the fortunes they made by plundering the country will not save them from utter rout.

IRON ORE.—We are told that fifteen tons of iron ore are excavated daily from the farm of Peter Comfort, in Franklin township. One has also been discovered on several neighboring farms.

DEDICATION.—The new Methodist E. Church in Petersburgh, (Y. S.) will be dedicated on Sunday, the 10th inst. See advertisement.

PATENT.—Among the patents issued for the week ending October 22, was one to M. A. Keller of Littlestown, for an improvement in harvesters.

ACCIDENT.—Dr. O'Neal, our neighbor, cut his right hand severely, the other day, whilst corking a bottle, which suddenly went to pieces in his hand. The hurt will, no doubt, be all right in a few days.

RETURNS.—From thirty-four counties in California render it certain that both Sprague and Fitzgerald, the Democratic candidates, are elected by a handsome majority. What becomes of the beasts of the Radicals that they would redeem the State at this election? It must be a great consolation for them to reflect that basis not radical enough?

THE ORIENTAL.—We clip the following from an independent Republican sheet, the Springfield (Mass.) Republican:

"Senator Howard, of Michigan, wrote a letter recently in favor of impeachment, which he was persuaded to withhold from publication till after the election of Tuesday. It is likely now to be suppressed. The reactionary tide has reached Indiana as well as all the other States. That fact is demonstrated by the result. If the election had been for State offices, and the question of negro suffrage and equality fairly presented, the Democratic victory in Indiana would have availed that of Ohio. As it is, Indiana may safely be placed in the Democratic column for the Presidential election. No matter who the Radicals may nominate for President, he will have to carry the irrepressible negro, and that will swing all the Western States against him. The West will not accept the negro, even if united with the negroes."

SOBERING THE RADICALS.—We clip the following from an independent Republican sheet, the Springfield (Mass.) Republican:

"Senator Howard, of Michigan, wrote a letter recently in favor of impeachment, which he was persuaded to withhold from publication till after the election of Tuesday. It is likely now to be suppressed. The reactionary tide has reached Indiana as well as all the other States. That fact is demonstrated by the result. The West will not accept the negro, even if united with the negroes."

HUNNICKET'S WORK COMMENCED.—Our news columns are already beginning to be filled with instances in which Hunnicket's precepts are being put into practice by his incendiaries of the torch brigade. In Roanoke county barn and contents burned: in Mecklenburg county another in Henrico county, Col. Carrollton's barn and wheat, carriage and other property, were burned on Sunday morning in Hanover, the residence of Col. Fontaine, President of the Virginia Central railroad, with all his furniture; besides several other cases in town and country. All these fires are due directly to the torch of incendiary negroes, who have learned their lessons in Hunnicket's school.—Richmond (Va.) Examiner.

IN ALABAMA.—The Radicals bought the votes of thousands of negroes with slips of paper which they called land-warrants—a printed promise to furnish the holder with a forty-acre lot and a mule after the election. A number of negroes, in a hurry for their reward, brought their "warrants" into Columbus, Ohio, on Friday night last, but were bitterly opposed and voted down.

CONGRESS WILL MEET.—This is but one of the many infamous schemes of the Radicals to secure supremacy for themselves.

THE TENNESSEE LEGISLATURE.—The Tennessee Legislature has passed a law making it a criminal offense to make any distinction between negroes and white people in public conveyances. That will effect more than anything else. Let every subscriber to the Compiler see what he can do in this important matter.

AT A MEETING.—A meeting of Radical negroes held in Quincy, Florida, October 9th, the following platform was adopted:

1. Universal suffrage.
2. Eligibility of blacks as jurors and office-holders.
3. Radical disfranchisement of Southern whites.
4. Social equality.

A nice platform, and one which we commend to the Radicals of this country.

THE ELECTION IN VIRGINIA.

They have had an election in Old Virginia—not an election conducted as such important affairs should be in a Republic, but on the new patent plan of the Radicals. First, a very large proportion of the whites were disfranchised, and then all the negroes who could be found in actual existence were registered as legal voters, and a heavy per centage of the Almighty Ruler of Nations." The people of the United States have abundant reasons for thankfulness to the "giver of every good and perfect gift" for the numerous blessings showered down upon them. Let all join in praise and thanksgiving.

A CONTEMPLATED OUTRAGE.

From the Chamberlain Spirit.

Several of the Democratic candidates for the Senate and House of Representatives of our State have been elected by comparatively small majorities. The wonder is, considering how infamously the State was gerrymandered by the Republicans, that they have been elected at all. But it is proposed now to cheat them out of the positions to which they have been elected by unscrupulous means.

The Harrisburg Telegraph, published by an unprincipled Radical, has proposed to the polls with a white ticket, to be used as a reserve force, and with their clothes changed to vote twice in the same district, or, without a change of clothing, half a dozen times in different wards of the cities. The Radical ticket was printed on colored paper, (as was appropriate,) and any negro approaching the polls with a white ticket in his hand had it taken from his fingers, and one of the loyal yellow cast substituted in its place. If he persisted in a desire to vote a Conservative ticket, or was suspected of doing so, he was threatened, and set upon with cries of "kill him! kill him!" It was with some difficulty that the military forces in Richmond prevented the black followers of Hunnicut and Underwood from murdering such men in the streets. In that city the election was to be kept open two days, but the second day's poll showing a white majority, the election was continued a third day, to enable the Radicals to bring in a sufficient reserve force of negroes from the surrounding country districts to change the result.

These are all facts. They can neither be explained away nor denied. It is

CHEESE AND BUTTER.

The town of Rennes, in Brittany, is noted for its peculiar butter; that milk of the previous evening is mixed with the warm morning's milk, and the mixture allowed to stand for two or three hours, when the whole is churned.—Those who practice this plan claim that they thereby obtain a larger amount of butter of a more delicate flavor.

Near Glasgow, in Scotland, the product of two or three milkings is allowed to stand until the cream rises, say from 12 to 24 hours; all is then poured, and left still, until the mixture is sour. A tough skin is formed over the surface; great care must be taken that this skin does not get broken, for, should the air obtain entrance, fermentation will take place; this will injure the butter, and spoil the butter milk.

In Holland the milk of each milking is allowed to become sour (being repeatedly stirred to prevent the cream from rising to the surface and remaining there,) and as soon as a wooden spoon will stand in it, it is churned.

FRENCH DWARF PEARNS.

This subject was pretty freely discussed by the horticulturists of Cleveland, Ohio, at a late meeting. Mr. Marshall said that some kinds of pears needed more pruning than others, but generally the neglect of pruning would soon result in the death of the tree, as the tree, if left to grow without check, would kill itself. Mr. Elliot said that the public generally wanted tall, straight trees, and in conformity to this, the nurserymen had got to trimming up the stems, leaving a few lateral branches so as to form a little top. And again, they grew them so thick in the rows that they had but little chance to form that bushy head which was desirable. However, taking the tree as it came from the nursery, getting thrifty one-year old trees, [if possible, he would cut back severely—that is, cut back all the laterals to one or two buds, and cut the top down enough to make the dormant buds in the stem about two feet high. The first year, he would do no more to it; the second spring he would cut back the last year's growth to two or three buds, leaving the tree in a round, bushy shape, getting the head as low and near the ground as possible. This process of spring pruning was to be continued until the head was formed, with, perhaps, some exceptions, to wit as one of them, if a tree grew very strong, as was sometimes the case, throwing up shoots four, six, or seven feet long, he would leave them until about the 20th of July, and then cut away about two-thirds of the previous year's growth. The reason for this is, that if cut in the spring, the vigor of the tree would cause a new growth of strong thrifty shoots; while, if left until the 20th of July, the growth would be checked, and the formation of fruit spurs induced. For the same reason, he would do much of his pruning by pinching in the ends of the limbs.

THE BEST TOMATO PICKLES.—Take one peck of green tomatoes, sliced, sprinkle them with salt, and let them stand until the next day, when drain them. Then use the following as spices: One ounce of mustard, one and a half ounces of black pepper, one ounce of yellow mustard seed, one ounce of allspice. Put in the kettle a layer of spices and one of tomatoes alternately. Cover them with vinegar; let the mustard before putting it in; let the whole boil fifteen or twenty minutes, and you will have pickles so good that you will be pleased by all your friends and neighbors asking you for a taste of them and a recipe.—*Ohio Cultivator.*

KEEPING CIDER SWEET.—The Utica Herald states that A. G. Williams, of Hamont, Oneida county, has a method of preserving cider worthy of being generally known. Allow the cider to work until it has reached the state most desirable to the taste, then add grated horse-radish in the proportion of a tumbler and half to the barrel of cider, and shake up well. This arrests fermentation, and after remaining a few weeks may be racked off in clean casks, and the air excluded by closing the bung. Cider preserved in this way has a pleasant, agreeable flavor.

JOHN SHIVELY, of Nelson, Wisconsin, went into his field last week and opening a stack of wheat found it wet. He said he would look at the other, and if that was wet to what he would hang himself. It was wet and he shot the top of his head off.

It would really seem that the ancients did surpass their descendants in the perfection of the arts. A fire and burglar-proof safe, which has been subjected to a volcanic eruption, has been discovered among the ruins of Pompeii, its contents uninjured. It very much resembles modern safes.

A PARTY of divers at Nashville recently hooked on what they supposed was the safe of a steamer sunk some twenty years ago. After long and hard labor they succeeded in raising an old cooking stove.

A "DISTRESSED MOTHER" writes to the Allentown (Pa.) Democrat for advice, which she gets, thus: "The only way to cure your son staying out late nights is to break his legs, or else get the sealed" he runs after to do your house work."

THE SPIRIT OF JEFFERSON states that the fish "trap" near Mr. Manning's residence on the Shenandoah produced as much as one thousand eels in one night last week! And it wasn't a good night for eels, either!

A NEW grass originally from Japan, is rapidly spreading at the South. It is regarded as a great blessing to the South. The man who wrote, "I'm saddest when I sing," was a fool to sing much.
